Message from the Guest Editors

This Special Issue aims to cover the advancements in state-of-the-art green economic transformations, as well as sustainable concepts, such as, but not limited to:

- The innovative development of national economies, accounting for sustainability challenges;
- The sustainable development under the conditions of Industries 4.0 and 5.0;
- Green transportation and green industries;
- A sustainable technological basis and new materials;
- Resource and technological challenges under the conditions of Industries 3.0 and 4.0;
- Green energy development and related economic transformations;
- Disruptive technologies and sustainable agricultural production;
- Sustainable development strategies;
- Renewable energy for sustainable development;
- Decision-making and decision support systems;
- Synergetic effects and environmental conflicts caused by economic transformations;
- The self-organization of economic and natural systems for sustainability.

Special Issue

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and
Applied Science, University of
Ontario Institute of Technology,
Oshawa, Ontario, Canada
